REASONS WHY THE

VIRGINIAN-PILOT

NORFOLK, VA.,

SHOULD BE INCLUDED IN YOUR LIST.

The Virginian-Pilot leaves no advertiser in doubt as to its actual circulation.

It does not deal in fairy tales but issues sworn statements every month which are published.

Its books are always open to advertisers and authorized agents.

Its average daily circulation is 10,219.

Its average Sunday circulation is 11,209.

Its average increase of circulation during the past five years has been more than 1000 each year.

Its circulation is more than double that of its strongest competitor and more than the combined circulation of the other four dailies in Norfolk and Portsmouth.

It pays 70% of all 2nd class postage paid at the Norfolk post office. The remaining 30% is divided between 17 other newspapers, periodicals and newsdealers.

Its rates are cheaper (circulation considered) than any other paper published in its territory—Virginia and North Carolina.

These are the reasons why the Virginian-Pilot should not be omitted from your list.

For further information, address

VIRGINIAN-PILOT PUBLISHING CO.,

Norfolk, Virginia.

THE NORFOLK DISPATCH

In its commodious new home, with the best afternoon equipment and the Finest Color Press in Tidewater Virginia, is now

Well in The Lead in Circulation and in Business.

It is the largest afternoon paper published in the greatest city in Virginia, appearing daily in

SIX AND EIGHT PAGES

AND SELLING FOR

ONE CENT

to thousands of readers daily. It is the people's paper because it is an honest and fearless advocate of their cause; and because it is brimful of bright, late and exclusive news.

It is the best appearing and best illustrated paper in all Virginia.

Its circulation equals the combined circulation of the afternoon papers of the three cities. Its volume of business is greater than that of any afternoon paper ever published in the tidewater, its size is greater, its price is less.

It offers more local advertising value for a smaller price than any paper published in Eastern Virginia. It challenges comparison, invites investigation.

THE PIONEER PENNY PAPER.

CIRCULATION BOOKS OPEN TO ALL.

LOOSE LEAF ACCOUNT BOOKS

Enable you to increase the volume of your Business without correspondingly increasing the expense in your Accounting Department

DOES OUR PERPETUAL LEDGER SAVE YOU MUCH TIME?

3427 Bookkeepers who had used our books more than one year were asked this question 3396 of them replied in the affirmative

LEAVES ARE HELD IN A VISE-LIKE GRIP WHEN BINDER IS CLOSED

PATENTED
DEC. 22, 1885
JULY 1, 1890
FEB. 27, 1900
MAY 15, 1900

THE PERPETUAL LEDGER

A leaf may be easily inserted or removed from any portion of the Binder without disturbing another

SALES OFFICES IN ALL THE PRINCIPAL CITIES. WE VISIT EVERY TOWN IN THE UNITED STATES

ADVANTAGES OF OUR SYSTEM

Perpetual

Dispenses with the annual transfer of ledgers. Once opened no further extra labor of the bookkeeper is required.

All Items of an Account

Are kept together, no matter what length of time the account covers, or how active it may be.

Live Accounts Only

Are retained in the Current Ledger. All filled leaves and closed accounts are filed in Transfer Ledger.

Quick Reference

The index being distributed through the book admits of locating the accounts much more rapidly. No separate index necessary.

Saves Time Posting and Balancing

As only open accounts are dealt with, and these are all properly arranged and their position is always the same.

Arrangement of Accounts

Can be had as to locality, by states or salesman's territory, in alphabetical order, as to time of opening, or activity.

No Spacing Necessary

Each account is given a separate leaf. Active accounts can therefore have unlimited space.

Less Liability for Error

Accounts are more surely located, and with one account on each leaf the proper space is readily found.

Expansive

It admits of insertion of new accounts from time to time in proper place without disturbing any other.

Easily Handled

As both sides of the leaf are used for each account, a much smaller sized book can be used.

Facility

One or a dozen persons can work on the books at one time in taking off statements or posting or balancing.

Convenience

Of having a customer's account all together, saving time of bookkeeper looking through a lot of old ledgers.

Simplicity

A trial balance is more readily taken off. Tabulation or abstract is simplified and systematized.

Adaptability

Any business of any size, or any sudden change in activity, as well as any arrangement necessary, can be accommodated.

Economy

In every case it costs far less in the long run — less in material, less in time, less in labor.

OVER 12,000 BOOKKEEPERS NOW USING OUR LEDGERS TESTIFY TO THESE POINTS OF SUPERIORITY

BAKER-VAWTER COMPANY

SPECIAL LOOSE LEAF SYSTEMS

For the Purchasing Department

Requisition Order Systems in Manifold, Quotation Record, Cost Book, Purchase Record, Stock Report, Perpetual Invoice Filing System.

By the use of a number of these systems in combination, we not only accomplish what you now secure with your present methods, but in addition we give you an absolute check and instant reference as to goods ordered, en route and received; instant and accurate information as to the amounts owing; absolute certainty that accounts are correct, as you work with the O. K.'d invoice itself, and not with figures three or four times transferred from the original invoices; the assembling of all invoices for any one firm in one place; an absolutely flexible system that will work just as well with 50 as 5,000 accounts, which will save 25 to 50 per cent. of the amount of work done at present.

For the Sales Department

Order Blank System, Binders, Holders and Blanks; Manifold Order Books and Blocks.

We can create an Order System, suitable to any business, whereby the original order can be used for filling, shipping, billing and charging the order, and thereby eliminate all journalizing of sales.

Billing and Charging System.

Adapted to most any business — an invoice and journal entry being made at one writing.
Can be used either for typewriter or hand writing; produces an exact copy of every invoice.

Salesmen's Price Books, Route and Expense Reports, Advertising Information Reports.

For the Shipping Department

Safety Manifold Shipping and City Delivery Receipts and Books.

By the use of which errors in shipment are prevented and all possibility of loss through miscarriage eliminated.

Merchandise Envelopes.

For the mailing of merchandise, samples, etc., at 3d and 4th rates of postage.

Shipping Tags.

For the Accounting Department

In this department we offer the greatest labor-saving systems known to accountants. We can create for any mercantile or manufacturing business a complete system on the loose leaf plan whereby a daily statement of the condition of the business can be procured as soon as the day's posting is done, making a monthly trial balance unnecessary.

Perpetual Ledgers — General Sales and Creditors.

Perpetual Trial Balance and Proof Books, Journal, Cash and Other Auxiliary Books.

On the loose leaf plan facilitate, to a great degree, the work of the accountant. We also furnish

Bills Payable and Receivable Forms, Voucher Systems, Check Registers, Pocket Ledgers and Collection Reports.

Monthly Statement System.

Especially adapted to a credit business where an itemized statement is issued. By this system we save all itemizing in the ledger. It has many other commendable features.

Inventory System.

By which any number of clerks can work upon an inventory at one time without the necessity of rewriting. We also manufacture a complete line of high-grade

Ruled Sales and Letter Impression Books.

For the Manufacturing Department

We devise Special Factory Order Systems, Cost, Material and Labor Records, Time and Pay Roll Records, etc.

Factory cost accounting is one of our specialties, and we can provide a system by which an accurate account can be kept of all material, labor and expense, showing actual cost of each article produced.

For Banks

Loose Leaf Systems have become generally recognized as especially suitable for Commercial and Savings Banks, and have been universally adopted for

General, Individual and Liability Ledgers, Journals, Receiving Tellers' Reports, Clearing House Reports, Discount Registers and Ticklers, Check and Draft Registers, Collection Registers and Ticklers, Minute and Signature Books.

Our Silica Daily Balance Book offers many advantages over any other system of daily balancing. We have also devised many useful manifold forms for the Collection Department, saving time and labor.

IF YOU WANT THE MOST MODERN, UP-TO-DATE METHODS OF ACCOUNTING, LET US SYSTEMIZE YOUR BUSINESS

FACTORIES: CHICAGO; ATCHISON, KANSAS
HOLYOKE, MASS.

OUR SECTIONAL POST BINDER

Holds securely one sheet or one thousand.

Has no long and unsightly posts projecting to catch on everything and be in the way.

Can be opened and expanded to receive leaves without removing the cover.

It is equipped with one-half and six one-inch sections for each post.

It is particularly adapted for filing records of any kind that require indefinite expansion.

PATENTED MARCH 17, 1892. DECEMBER 19, 1899.

Securely Locked by mechanism in top cover.
Key-hole shown in lower left hand corner of cut.

We have 60 experts covering the entire country. If one is not located in your city, he can call on you in a few days if you will notify our nearest office.

We are the originators and manufacturers of the Perpetual Ledger and many other Loose Leaf Labor-Saving Systems.
